

Glow Cow 250

Dairy Mineral Supplements

Supplements to sustain Herd Health & Performance

What is **Glow Cow 250** for Dairy Cows ?

Glow Cow 250 is a high specification lactating Dairy Mineral pellet for dairy cows in all stages of lactation. It not only provides the required macro and micro minerals, vitamins and buffers for high performance dairy cows all blended into a convenient pellet, but includes the proven organic mineral combination of ZinPro Availa 4 and Availa Chromium.

Glow Cow 250 has the following benefits:

Calcium, Magnesium and Phosphorus

It is well documented that cows require macro minerals during lactation. **Glow Cow 250** provides high levels of calcium, magnesium and phosphorus for cows producing up to 45 litres of milk.

Microminerals

The micro minerals included in **Glow Cow 250** are Zinc, Copper, Selenium (inorganic and organic), Iodine, Boron and Manganese all at full daily requirement rates. ZinPro organic sources of Zinc, Copper, Cobalt, Manganese and Chromium is also included in **Glow Cow 250**, which means more of the minerals are absorbed by the animal and are able to cope with challenging effects of stress.

Vitamins

The vitamins included in **Glow Cow 250** are vitamins A, D and E. Our research has revealed that additional levels of Vitamins D and E, significantly above the recommended daily rate, will better support the cow through her lactation, particularly assisting with calcium absorption in mid to late lactation and enhancing a hassle free calving the following season.

ZinPro Availa 4 + Chromium

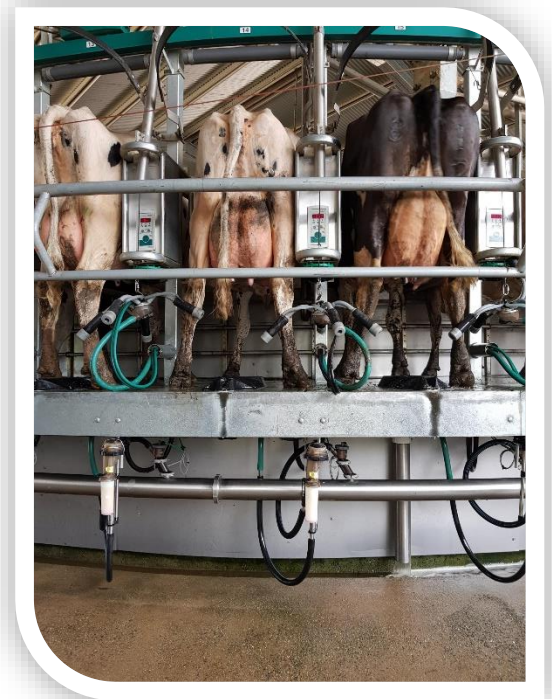

ZinPro Availa 4 + Chromium is a proven additive for improved herd health, feed efficiency and milk production.

Biotin

An essential building block for hoof health and reducing lameness.

Recommended Dose Rates for **Glow Cow 250**:

Glow Cow 250 recommended feed rate is 250 grams per cow per day.

Please note: It is always recommended to offer salt ad-lib to aid absorption of minerals.

Glow Cow 250 is available in 25 kg bags, Bulka bags
